Manufacturer & Exporter
Handbags & Accessories: Sustainable Materials

About Us

At Kabir Leathers, we believe that design-led development and responsible manufacturing can go hand in hand. Since 1995, we've been creating high-quality leather accessories for premium, design-led brands across the USA, UK, Europe, and Japan.

Our R&D-driven approach enables us to offer tailored solutions—from product development to timely delivery—while ensuring the highest standards of quality.

As the world moves towards more conscious consumption, so do we.

A Legacy of Craft. A Future in Sustainability.

With over three decades of manufacturing experience, we've built a reputation for craftsmanship, innovation, and ethical production by delivering exceptional leather goods.

In 2018, we expanded our offering to include handcrafted handbags and accessories made from sustainable materials like grass raffia, paper raffia, cotton cords, and more.

These pieces are made using low-impact processes, often by skilled artisans (householder women) in small batches, reflecting our commitment to both people and the planet.

Why Kabir Leathers?

30+ Years of Experience: Specialising in R&D and a design-led approach with a commitment to quality, sustainability & innovation.

End-to-End Manufacturing: From concept and sampling to bulk production and shipping

Women Empowerment: Skilled householder women + women workers for 100% of raffia weaving

Ethical Production + Transparency: Fair wages, clean supply chains, safe working conditions. Full visibility from sourcing to shipment

Strong Global Footprint: Serving leading Eco- conscious brands across the United States, UK, Spain, Japan, and beyond

Legacy of Craftsmanship: Skilled artisans and technicians ensure every product is made with precision and care fusing traditional techniques with modern design sensibilities.

Infrastructure

Kabir Leathers operates with a robust manufacturing network backed by cutting-edge infrastructure, tailored to meet diverse client specifications. Our performance is driven by advanced technological capabilities, strict internal quality audits, timely deliveries, and a highly skilled workforce.

We take pride in continuously investing in specialised machinery and systems to elevate both precision and output. Our facility includes:

- Automated and computerised sewing and embroidery machines
- CAD-based design and pattern-making tools
- Digitised material tracking and inventory systems
- Automated storage and resource management platforms

These systems allow us to streamline operations, reduce errors, and maintain the highest standards of craftsmanship across every product we deliver.

Creative Design & Development

From Concept to Collection. Seamlessly.

Every product begins with a spark, a sketch, a story. At Kabir Leathers, our design process blends creativity, trend intelligence, and craftsmanship to bring that idea to life.

Our in-house designers work closely with skilled artisans to develop seasonal collections tailored to global fashion calendars—including Spring/Summer, Pre-Fall, Fall/Winter, and Flash Drops—all aligned with brand identity and market trends.

SERVICES:

- Trend forecasting for Europe, USA, UK
- Brand- and season-specific product R&D
- Design collection planning & development
 - Cross-seasonal visual display concepts
- Vertical presentations from concept to final product

Production

STATE-OF-THE-ART MANUFACTURING

To ensure the highest standards of quality and efficiency, our production floors are equipped with modern manufacturing facilities and specialized machinery—operated by our skilled and experienced workforce.

Our two dedicated factories cater to distinct product categories: Leather Division & Sustainable Materials Division.

Both units feature fully integrated, in-house departments for cutting, stitching, assembly, and finishing, allowing us to maintain complete control over every stage of the production process. With in-house sampling and production under one roof, we ensure speed, precision, and flawless execution.

Production & Sampling Capacity

Number of Employees: 600 employees (70 staff & 530 workers)
Production Capacity: 400,000 - 500,000 per annum

PRODUCT	MINIMUM ORDER QUANTITY
BAGS	500Pcs/ style/ colour
SLGS	100Pcs/ style/ colour

SAMPLING	TIME PERIOD	COST
PROTO	2-4 Weeks	Free on order
SMS	4-6 Weeks	100% uncharge on FOB Prices
ORDER	90-120 Days	Depending upon style/ quantity
COURIER CHARGES		All samples ordered by the customer will be on chargeable basis

Quality Control

Precision- Crafted. Quality-Assured.

At Kabir Leathers, we are committed to delivering exceptional quality through a future-ready infrastructure. Our dedicated Quality Assurance team ensures that every product meets the highest standards —consistently and without compromise.

With cutting-edge Japanese and Italian machinery we uphold precision at every stage of production. A systematic quality control protocol is managed by seasoned professionals and includes lab testing, pilot runs, and final inspections. We also operate an automated in-house washing plant, overseen by a specialized team of industry experts.

Our goal is simple: to deliver excellence—functionally, ethically, and aesthetically.

Compliances

Kabir Leathers is a socially responsible manufacturing company, committed to ethical practices and full compliance with all national and international social compliance standards.

We ensure safe working conditions, fair wages, and zero tolerance for discrimination or child labour. Our operations follow all regulatory guidelines, with regular audits and continuous improvements to uphold the highest standards of accountability and transparency.

Our factory is compliant to work with following brands.

J.CREW, HUGO BOSS, INDITEX, MARC JACOBS, JOHN LEWIS, DUTCH LLC (JOIE)

Sampling & Customisation

Engineering Elegance

Moodboards, technical prototyping, and precision sampling for discerning brands.

At Kabir Leathers, our Sampling Department is at the heart of our product development process. Every prototype is crafted with precision by our highly skilled tailors and craftspeople, who bring deep expertise and attention to detail to each stage.

We offer comprehensive product development services including moodboard creation, trend forecasting, pattern making, and prototyping. Our vast in-house archive of past samples allows us to create quick and effective mock-ups tailored to the buyer's vision.

SAMPLING CAPACITY: 150 bags per month

THE ALLURE OF GRASS RAFFIA BAGS

The Art of Raffia Weaving

Raffia weaving is more than just a craft; it is a cultural heritage passed down through generations.

Artisans, often working in small, family-run workshops, meticulously handcraft each piece, ensuring that every bag is unique. The weaving techniques used are intricate and time-consuming, reflecting the skill and dedication of the artisans.

The Art Of Raffia Crochet

Our raffia crochet pieces are crafted by highly skilled artisans using sustainably harvested, hand-split raffia for a consistent, even finish. Each product takes about four days and 14,000 stitches to complete—entirely by hand with no visible joints or knots.

The signature ‘wattle’ stitch, seen across our iconic bags, takes months to master and years to perfect, making each piece a limited-edition work of art. Hats are shaped by hand using steam-blocking techniques.

A raffia accessory from Kabir Leathers is made to last. With proper care, they can be used for decades—some customers have cherished theirs for over 20 years.

Raffia

Grass Raffia, Paper, Viscose, Rayon

The raffia fiber is a natural fiber. It has similar properties like jute, bamboo and hemp fibers. The raffia fiber is obtained by wood pulps. The raffia fiber is soft, pliable, strong, durable, easy to dye and sustainable material for weaving baskets, hats, mats and rugs.

Add some beautiful cherries to your brand backed by strength and expertise in natural

Paper Straw

Twisted Paper Straw

Anticipate the new trends of style,
applying its expertise to the specific
requests of any single field of application.

Cotton Cords

Cotton cord -The manufacturing of cotton cords consumes lesser amount of our natural resources and this directly amounts to huge conservation of our natural beauty. Brighten up your beach range with our knotted rope tote, made from 100 percent cotton cord.

Woodden Beaded

Rattan

Rattan is a completely sustainable product that is environmentally friendly. Rattan helps to sustain numerous other plants and landscapes. Ensures a long-term supply of a useful material.

Our Leather Product Expertise

We specialize in crafting a diverse range of handbags & accessories bringing craftsmanship and innovation together through a variety of specialized techniques, including:

- Woven
- Bonded
- Moulded
- Classic Plain
- Embellished
- Embroidered
- Perforated

Innovation Meets Craftsmanship

From timeless ladies' bags to modern accessories, our collection is the result of continuous innovation, research, and development. Each product is shaped by the combined efforts of our skilled designers, merchandisers, and master craftsmen, who bring fresh ideas and techniques to life.

We are constantly exploring new materials, finishes, and design possibilities—pushing the boundaries of leather craftsmanship while keeping innovation at the heart of everything we do.
