MISSION RE-EARTH

A Message from Vikram Sekhri

Forever we've been taking from the Earth,
Taking, considering it our right to do so.
Forgetting every time,
That abundance is not permanent
Yes there was a time when everything was in plenty.
And to make a choice was never compulsory.
Back then, every pillar of the ecosystem:
Environment, Economy, Society,
Balanced each other well.

But then,
We took a lot more than we could give,
And this balance fell apart.
Let's remind ourselves all over again,
That resources are decreasing and demands
increasing,
And to keep our ecosystem going,
We need to give back more than we take from it.

So let's begin to give back.
To the Environment we grow in.
To the Economy we prosper in.
To the Society we live in.
Because when we give back, we get back.
Let's preserve our tomorrow.
Let's protect our planet.

LET'S RE-EARTH.

THE PROBLEM

Changing Climate

Water Shortages

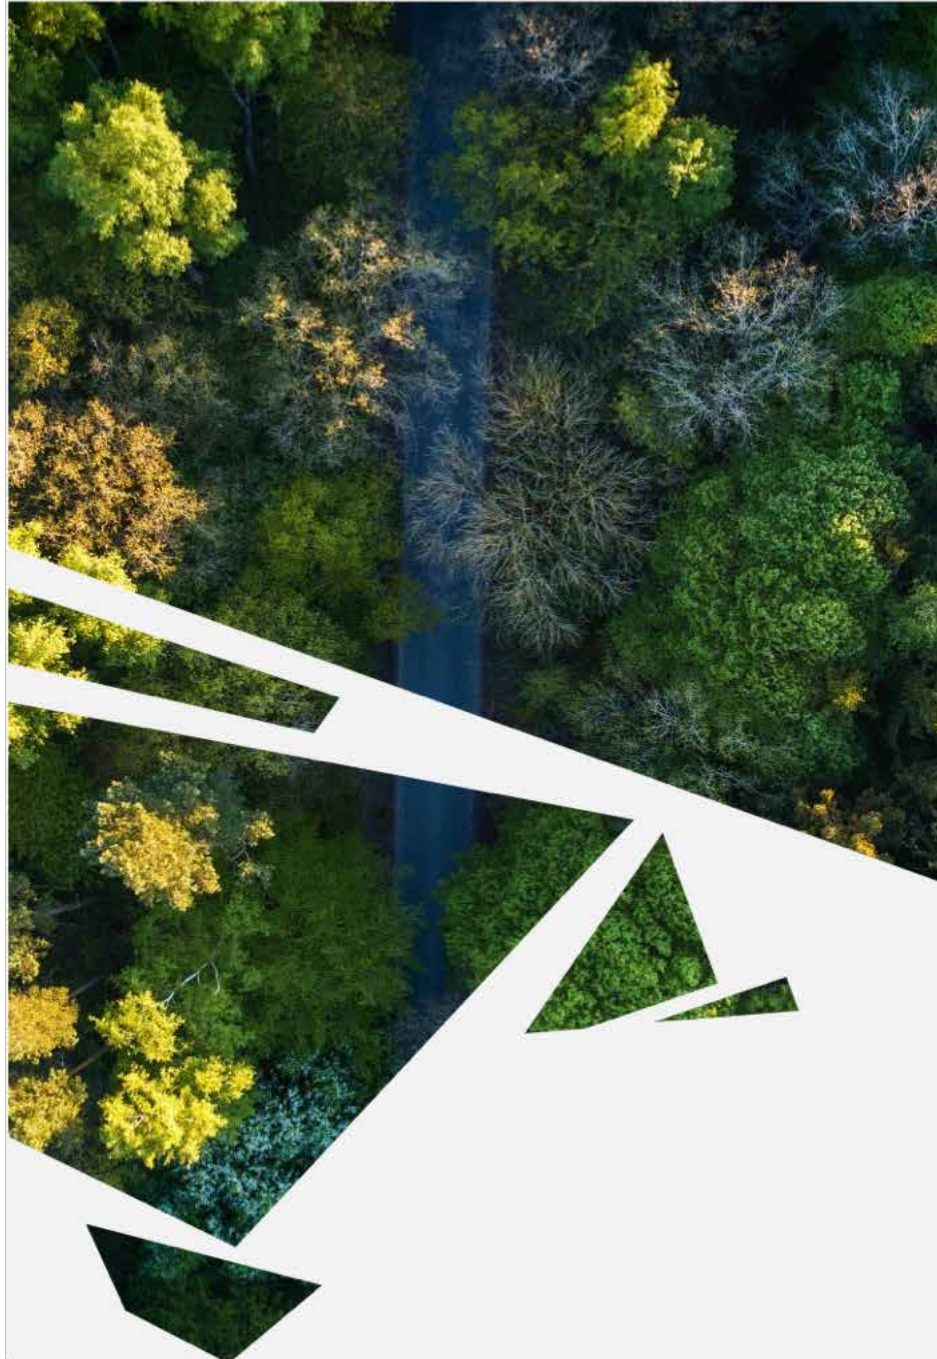

Longer Winters

New Terrain

Industrial Impact

PRODUCT STEWARDSHIP

Enhancing sustainability attributes of products, reducing packaging, vendor code of conduct, green channel partnership, and a responsible chemical management policy.

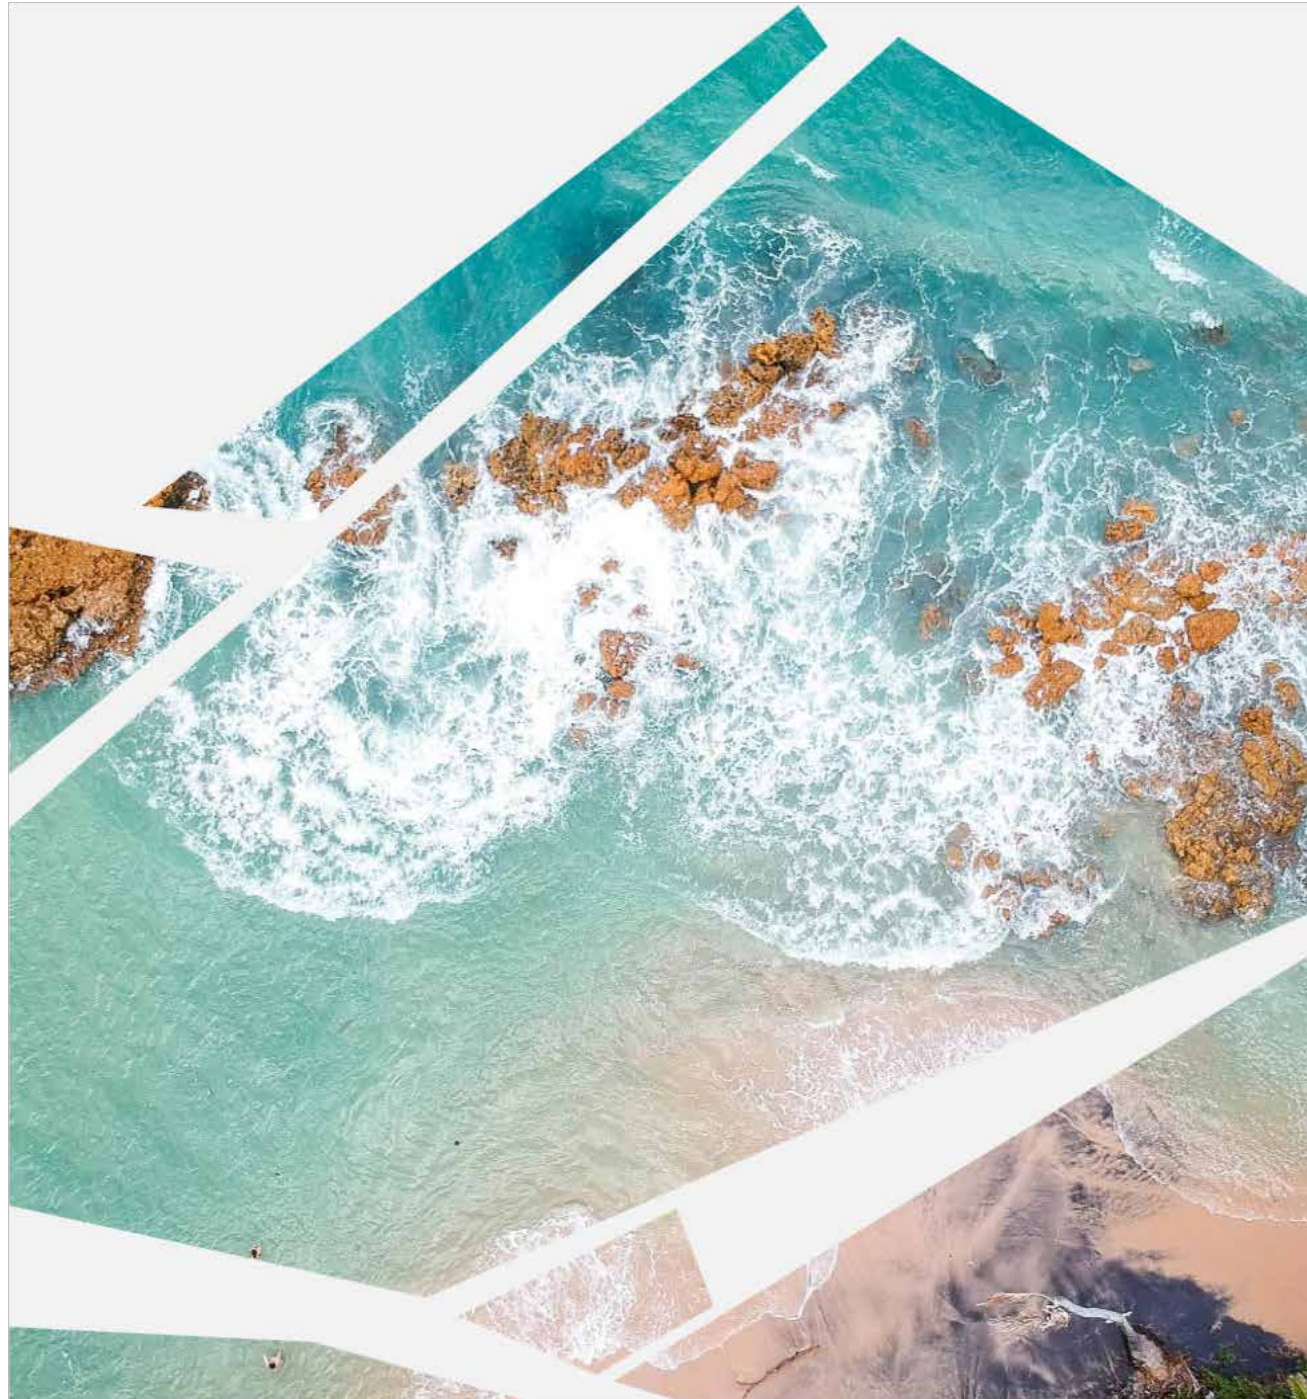

PEOPLE STEWARDSHIP

Includes continual improvement and update of internal workplace standards, sustainability related trainings, and encouraging employees volunteering for CSR projects.

ENVIRONMENT STEWARDSHIP

Through reduction of carbon emissions, reducing dependency on fresh water and ensuring no waste generated within our premises reaches the landfill.

ENERGY

Reduce purchase of grid electricity by 10 % through energy efficiency.

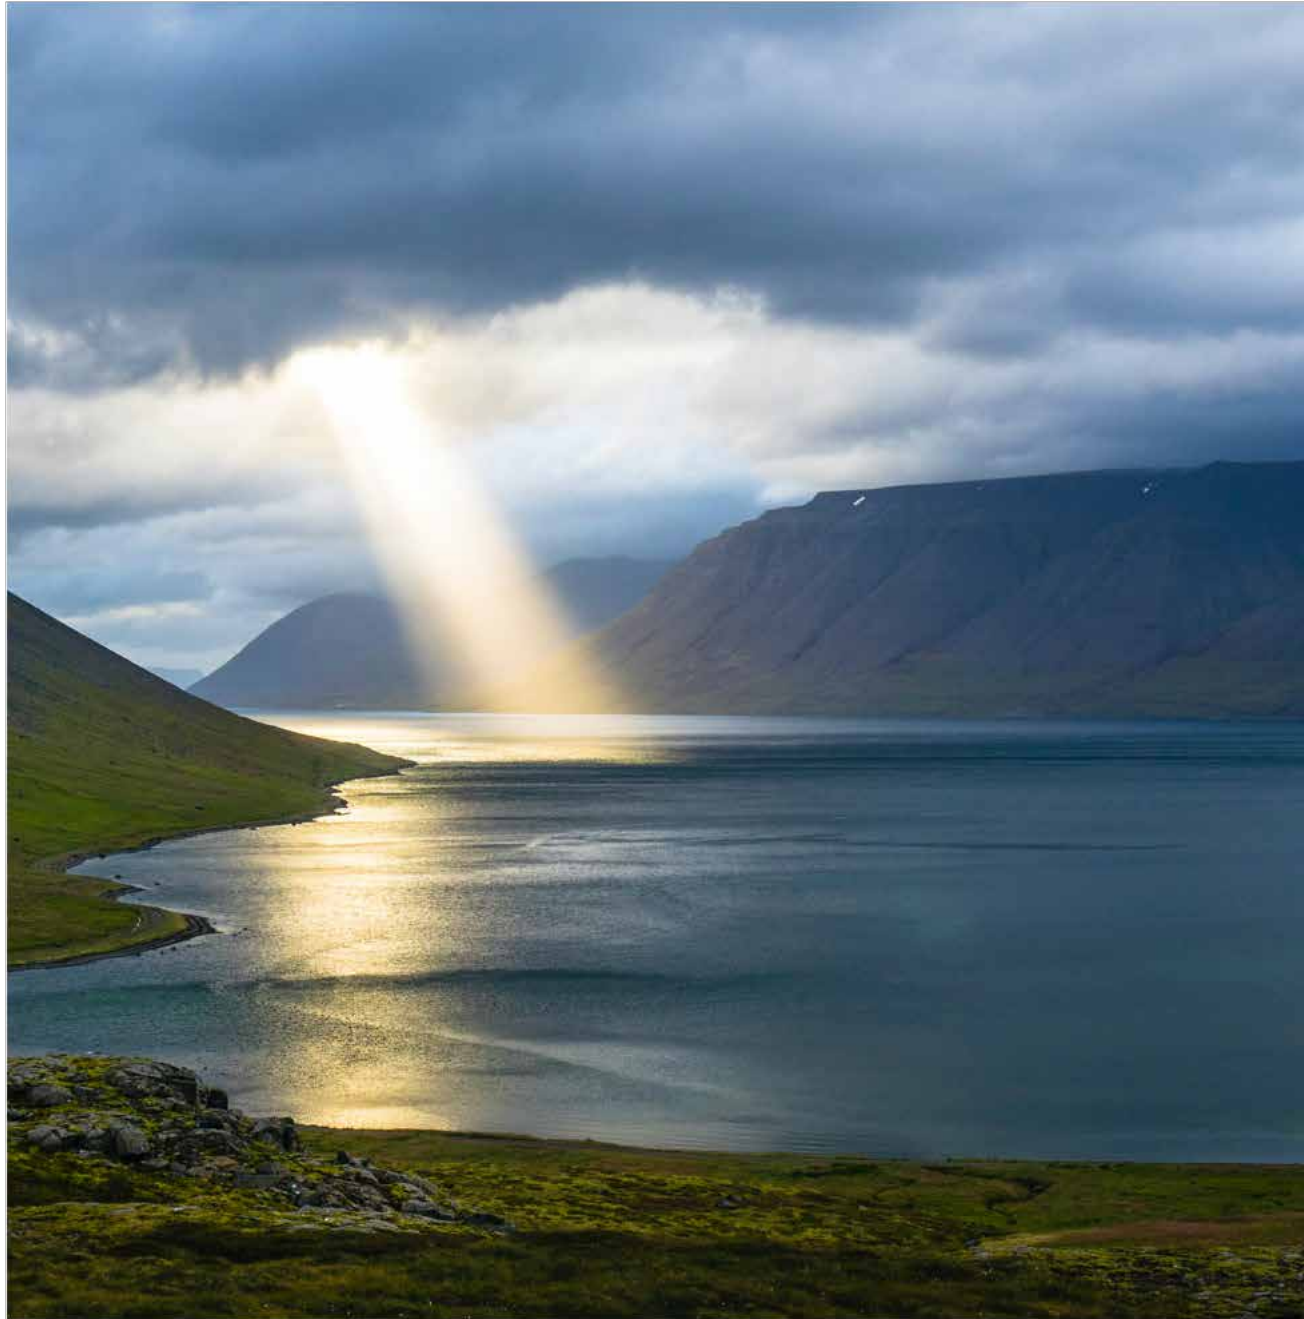

CARBON FOOTPRINT

Reduce purchase of grid electricity by 15% through renewable energy.

GREEN BUILDING

To minimize environmental impacts from our built environment across our facilities by pursuing green building certification.

WATER

50% renewable water across our own facilities. So 80% recycle/reuse across our facilities.

WASTE

Zero waste to landfill across all the facilities.

WASH PLEDGE

100% compliance to WASH pledge.

SAFETY

Zero severity at our premises.

PACKAGING

95% sustainable packaging.

SUSTAINABLE PRODUCTS

To have atleast 50% products by volume on sustainable attribute.

MISSION RE-EARTH:

KABIR CSR INITIATIVES

CSR ACTIVITY	CURRENT STATUS	TARGET 2025
Educational support to girl child	100	250
Healthcare initiative in addition to Statutory Medical Support provided to extended family members	100	200
Sustainable livelihood support to families	300	1000
Gender Equality	30%	100%

WORLD ENVIRONMENT DAY

5TH JUNE, 2023

“PLANT A TREE”

Kabir Leathers celebrated World Environment Day on 5th June 2023.

With an active participation of our staff members & our Managing Partners we successfully planted 25 flowering trees which will bloom in the near future. Our main objective & purpose was to plant as many trees and make Earth a better place to live!

“PLASTIC FREE”

We also did a drive to clean up the park & neighbouring areas to remove any garbage lying around, specially plastic items to help make the environment plastic free.

EDUCATIONAL SUPPORT TO GIRL CHILD

We support the education of over 100 girl children of the workers employed at our factories.

SUSTAINABLE LIVELIHOOD SUPPORT TO FAMILIES

By giving job work to household women such as hand-weaving of natural, sustainable materials such as straw, rafia, etc after providing them requisite training.

GENDER EQUALITY

Providing equal job opportunities to women workers in order to create an atmosphere of inclusivity

WOMEN

EMPOWERMENT

SUMMARY

- Business is about more than just making a profit.
- Climate change, economic inequality, and other global challenges that impact communities worldwide have compelled Kabir to be purpose-driven and contribute to the greater good.
- At Kabir we strongly believe companies aren't just employers, but stewards of society.
- We have begun to take a stronger stance on large-scale issues, in our day-to-day functioning and are committed to devoting significant resources to socially responsible initiatives.
- We seek your wholehearted support in partnering with us to “Do well by doing Good”.
- Your business decision in partnering with socially responsible companies will certainly impact profit, people and the planet.

THANK YOU
